

BENTONVILLE PROVIDER AWARDED NATIONAL ACCREDITATION IN CHILD CARE SERVICE QUALITY

Better Beginnings congratulates Mary Line (pictured), owner of IDC & Nursery School FCCH in Bentonville, on earning national accreditation.

LITTLE ROCK, Ark. (March 17, 2022) – [Better Beginnings](http://BetterBeginnings.com), a program of the Arkansas Department of Human Services Division of Child Care and Early Childhood Education focusing on giving children the best quality care, congratulates Mary Line of IDC & Nursery School FCCH in Bentonville on achieving national accreditation by the [National Association for Family Child Care](http://NationalAssociationforFamilyChildCare.org) (NAFCC).

This accreditation is awarded to child care family home providers that meet the highest standards for home-based quality care in early care and education. This is the only national accreditation awarded to child care family home providers.

“Mary has served children and families in Arkansas in a variety of ways over her career in early

childhood education,” said Kelli Hilburn, program administrator of Better Beginnings. “Her dedication to improving the quality of service to her community is a great example to us all and demonstrates her level of commitment to our children and families.”

Line, who has been part of the early childhood education community for 28 years, achieved accreditation after completing 120 hours of professional development and an extensive application process, including observation and review by the NAFCC’s accreditation council. She is one of nine child care family homes in Arkansas that participated in a cohort to achieve this accreditation.

“If I live quality with my children and families every day in my program, they feel it. They see it,” Line said. “With them is where my pride and satisfaction lies.”

Any child care family home provider can apply for accreditation on the NAFCC’s [website](#). This accreditation results in the child care family home provider advancing to Better Beginnings [Star Level 3](#), the highest quality ranking that can be achieved.
