

The ROI of Early Childhood Education

Early Childhood Education by the Numbers

2/3

Nationally, two-thirds of children under age five live in homes where both parents work.

45%

In Arkansas mothers make up 45% of the primary breadwinners in families. Most moms work and don't have the option to stay home.

\$7,500

The average annual cost of center-based infant care in Arkansas is roughly \$7,500 – as much as 34% of income for a single parent.

Quality child care and early childhood education impact our economy now and in the future.

1 to 4 Days

Nationally, 45 percent of working parents miss one to four days of work every six months because of a breakdown in child care.

\$4 billion

Employee absenteeism due to child care breakdown results in an estimated loss of \$4.4 billion annually across the U.S.

The Return on Investment in Early Childhood Education

Essential to new business recruitment

Quality Early Childhood Education Matters

4 months

Most parents must return to their jobs by the time their babies are 4 months old.

11,500

Children spend 11,500 hours in early care and education settings before kindergarten.

85 by 5

85 percent of a child's intellect, personality and social skills are developed by age 5.

Quality early care and education teachers are trained to support the development of social and academic skills used throughout a child's lifetime.
